

Thanks to its worldwide activities and years of market experience in printing of decorative paper and foil for the furniture and laminate flooring industry, Chiyoda Europa belongs to one of the leading decor printers in the world.

Chiyoda Europa has a dedicated team with great technical knowledge, delivers excellent quality and has a forward-looking vision. Creativity, process innovation, extensive product development and targeted marketing support this policy. This gives Chiyoda the opportunity to offer a wide and interesting product range.

We are looking for:

## IT assistant (m/f)

### Job description

Business activities are managed and controlled by a sector-specific ERP package. You will be responsible for the support and further development in cooperation with external parties. You will develop and adapt supporting software applications on the basis of an analysis file and ensure implementation and follow-up. You will play a supporting role in the management and optimization of the automation infrastructure, central information systems and data collections, in such a way that adequate security and continuous availability of the information systems and databases is guaranteed. As a team member of a small IT department, you will come in contact with a wide range of activities.

### Your profile / Competencies:

- • You have a bachelor's or master's degree and preferably a first relevant work experience.
- • You are fluent in Dutch and you have at least basic communication skills in English.
- • You are a solution-oriented, analytical person.
- • You are a team player, but you can also work independently.
- • You are flexible, stress-resistant and can reason logically
- • You achieve satisfaction in helping your colleagues and creating added value.
- • You also offer support to internal employees so that interruption of work activities is limited

### Your knowledge

- • Developing windows applications preferably with Microsoft-NET, C #
- • Knowledge of SQL
- • Familiar with Client / Server Windows OS, Microsoft Office, network infrastructure and virtualization technology.

### Our offer

We offer a full-time job, alternating and with room for autonomy and initiative as well as a motivating salary adapted to your competences.

A pleasant working environment in a dynamic team

If interested, please send a motivation letter with accompanying curriculum vitae. If you want more information, please contact Viviane Hermans, v.hermans@chiyoda.be - 0476/216848 - 089/610740.
